

REMC 5 is excited to announce...

# the 21 things

## 21 things for the 21st Century Educator

Technology every educator should know

May–August, 2012 Session

Created by Clinton County RESA, Ingham ISD, Macomb ISD & Shiawassee RESD

The purpose of this resource is to provide “Just in Time” training through an **online interface** for K-12 educators based on the National Educational Technology Standards for Teachers.

Find out why other educators are so excited!

“I am being so serious when I say to you that this was hands down the best class I have ever taken.”

*Mindy Wischmeyer, Mt. Pleasant Area Technical Ctr.*

“I'm using a podcast in my class today... thanks to 21 Things! I've actually used a lot of what I learned — ALREADY — and it's only been two weeks!”

*Kristina Eggenberger, Alma High School*

These standards are the basic technology skills every teacher should possess. In the process, educators will develop their own skills and discover what students need in order to meet the NETS for Students, as well as the MMC Online Experience

### the 21 things

- About Basics
- Face of Your Classroom
- Collaboration Tools
- Communication Tools
- Content Area Tools
- Differentiated Instruction & Diverse Learning
